

# SURGICAL SCALPEL BLADES

Henry Schein surgical scalpel blades feature a sharp cutting edge for superior cutting and clean incisions. Each blade is produced from high quality, durable carbon steel or stainless steel. A controlled sharpening and heat treatment ensure consistently sharp, durable and strong blades. They are intended for use with #3 or #4 fitted, autoclavable handles. **Henry Schein surgical scalpel blades** are individually-packed in an easy peel aluminium foil.

## FEATURES & BENEFITS

- Single use to prevent cross contamination
- Pre-sterilised by gamma irradiation with a 5 year shelf-life (unopened)
- Excellent cutting properties
- Size is clearly engraved onto each blade for easy identification
- Intended for use with #3 (1007520 / Air 9008098) or #4 (1003973 / Air 9008099) fitted autoclavable handles
- UDI compliant barcode labels
